

# Call for Proposals at the IAU Office of Astronomy for Education

## Teacher Training Program (TTP) 2025

The OAE invites and encourages anyone working in astronomy education together with their National Astronomy Education Coordinators (NAECs) to submit proposals for financial support of up to **2000 Euros** per project, to host a teacher training and professional development workshop in 2025/6.

This dedicated grant requires a collaboration between at least one NAEC team member of a country, a local teacher and, where possible, a local astronomer.

The 2025 TTP will also be a pilot of the Astronomy Teacher Training Transparency Standards, which the OAE will be launching soon.

For more information on the eligibility criteria, rules, application form, and all important dates, please visit our website: <https://astro4edu.org/ttp/>

**Application deadline:**  
**30 April 2025**
